GRUPPE 2

Company SWOT analyze

Factors Analyze

Strengths

- Strong, long-term customer support through maintenance contracts
- Accessibility features and specialization
- Copy machine renting service
- Proprietary software and production line creates room to adjust our margins

Opportunities

- Digitalization creates need for accessible tools in public offices
- Customer’s ecological interest
- New printing technologies

Weaknesses

- Purchasing materials from other countries
- Small businesses and public sector is a sensitive market
- Delivery is not in our hand
- Dependence on our limited maintenance & service capacities
- No proprietary ink product → dependency on other companies

Threats

- IT-Security scandals about data protection and new GDPR laws with copy machines
- People ecological and economical awareness about paper consumption and non-rechargeable ink cartridge
- Public budgets for office equipment decreases
- High price of compatible ink and their environmental impact
- Paper alternatives

SWOT Matrix

X	Strengths	Weaknesses
Opportunities	Accessibility features and specialization Digitalization creates need for accessible tools in public offices	No proprietary ink product → dependency on other companies New printing technologies
Threats	Proprietary software and production line creates room to adjust our margins Public budgets for office equipment decreases	Purchasing materials from other countries IT-Security scandals about data protection and new GDPR laws with copy machines

Implementation Rules

Expanding" S-O strategies

→ The need for accessible copy machines creates the opportunity to export our existing software to other companies.

Catch up" W-O strategies

→ Invest in ink selling and/or ink production based on new printing technique for better ink management

Hedging" S-T strategies

→ Margins in production are easily adjustable, because we own the production place. Furthermore an additional strategy is to offer leasing contracts, which can be more affordable for low-budget customers.

Dismantle" W-T strategies

→ Hiring an extra Quality Inspector in the purchasing department and have a compulsory participation in workshops about conoformity of material purchasing
